EMDR Acknowledgement & Consent

I have been advised and understand that Eye Movement Desensitization and Reprocessing (EMDR) is a treatment approach that has been widely validated by research for use with Post Traumatic Stress Disorder (PTSD). Research on other applications of EMDR is now in progress.

I have also been specifically advised of the following:

- 1. Distressing, unresolved memories may surface through the use of the EMDR procedure. Some clients have experienced reactions during the treatment sessions that neither they nor the administering clinician may have anticipated, including a high level of emotion and/or physical sensations.
- 2. Subsequent to the treatment session, the processing of incidents and/or material may continue, and other dreams, memories, flashbacks, feelings, etc., may surface.

Before commencing EMDR treatment, I have thoroughly considered all of the above information. I have obtained whatever additional input and/or professional advice I deemed necessary and/or appropriate to making an informed decision concerning my participation in EMDR treatment.

By my signature below, I consent to receiving EMDR treatment from Jodi Anderson, MSW, LICSW.

My signature on this Acknowledgement and Consent Form is free from pressure or influence from any person or entity.

This consent will expire automatically after 1 year from the date on which it is signed, or upon fulfillment of the purposes stated above. This consent may be terminated at any time by a written notice from the client or legal guardian.

INSURANCE

Jodi Anderson is licensed to provide therapeutic services by the State of Minnesota as a Licensed Independent Clinical Social Worker (LICSW). She is eligible to provide coverage through Blue Cross Blue Shield of MN, Medicaid (MA), Prime West. Although she does not work directly with other health insurance companies, many providers reimburse for services on an out-of-network basis. Coverage depends on your specific plan. Please see below for questions to ask your provider.

If you would like to use this option, you will pay the full session fee at the time of service and submit the claim to your insurance company. Please discuss this option with us so we can provide you with the appropriate forms and receipts.

As a general rule, health insurance companies will only pay for therapy if there is a diagnosable condition (e.g.: Dysthymic Disorder, Major Depressive Disorder, PTSD, Generalized Anxiety Disorder, etc.). In-network therapists must make a diagnosis within two sessions and submit details of the diagnosis, the current symptoms and a treatment plan to the insurance provider. Insurance companies who are paying for treatment have the right to periodically review progress and ask about any shifts in treatment-focus to determine whether they will continue to pay for therapy. Please note that couples therapy – where the relationship is the focus of the therapy – is NOT typically covered by insurance unless one of the parties has a diagnosable condition for which couples therapy is a legitimate and recognized treatment.

Mental health insurance coverage is changing. Many insurance companies are challenging the medical necessity of treatment. Those companies are asking for more reports (documentation) and are taking longer to respond to a claim. If it is necessary for us to prepare a report for an insurance company, you may be charged for report writing time at the same rate as therapy time.

Therapists who choose not to be in-network with health insurance companies still assess for diagnosable conditions, create treatment plans and keep regular progress notes. However, you *do not* have to meet criteria for a formal diagnosis to receive therapy, and you have much more flexibility in choosing the issues that you would like to be the focus of therapy. This means that you can bring any issues to therapy, whether it is relational, sexual, spiritual, cultural, work/career-related, bereavement-related or other areas of concern to you.
